How Do We Track the Progress of Research/Practice Partnerships?

Overview:

- Description of the context/process of survey
- Input from panel of practitioners
- Q/A session from audience
- Survey review in role alike groups
- Discussion of feedback about survey

Motivation for developing a measure of R/P Partnership

BERC

- Partners = foundation members, university, practitioners
- Funders want to know “What’s changed” “What value of my investment”
- Internally, utility and quality of the work for continuous improvement

Education Northwest/REL Northwest

- Partners = State agencies, districts, other researchers, IES
- Formative evaluation component built into REL annual plan
- Challenge: Developing good measures of partner engagement and capacity building

Stanford/SFUUSD Partnership

- Partners = University and district/practitioner partners
- Satisfaction and quality of efforts, track impact of partnership over time

Issues addressed while developing this survey:

Addressing all variables of R/P partnership
