

All youth ready for college, work & life.

Youth Services Mapping (YSM) system

www.ysm-austin.org

- Web-based system to share information about services and supports for children and youth
- Designed by youth service professionals for youth service professionals and policymakers (a committee from our Ready by 21 Coalition worked for years to spec out a system)
- Data entered by each youth service/support organization and can be updated at any time
- Designed to complement 2-1-1's information and referral system for the general public
- Uses the Forum's Ready by 21 framework to organize youth services and supports
- Modular by schools and districts and zip codes and counties – designed for expansion/replication

STILL VERY MUCH A WORK IN PROGRESS!!!!

Search

- By age group and Learning, Working, Thriving, Connecting or Leading/Contributing
- By key word or general service category (e.g. academic support, psychological services, arts)
- Filter by program setting (school or community), time of day, program cost, evidence-based ...
- Mapping function

Show

Which service providers are in the system

Reports

(You must be logged in to view reports) Guest login: Username: RB21guest Password: rb21guest

- On the navigation bar, click Reports
- Go to the section on **Reports by District and School** and click on the Service Providers at Schools Report.
- The All Service Providers tab gives you a list of service providers. The Service Providers by Program Type organizes the list of providers by which type of direct programs they offer – in-depth, periodic, or events.
- Click on the yellow arrow  or the + (plus) sign in a report to view more detailed information such as the educational level: Pre K, Middle School, High School. The next  or the + (plus) sign will give you the list of individual schools within that education level.
- Click on a link for an organization, program, or school for more information.
